Spare Tire and Tool Compartment

Jack, tools, and spare tire

1 Tool bag
2 Jack handle
3 Jack
4 Adapter socket (for removing the spare tire)
5 Towing eyelet
6 Wrench
7 Spare tire

Taking out the spare tire

1 Remove the inside spare tire cover.

2 Open the right side auxiliary box and remove the cover of the spare tire clamp bolt.

3 Put the adapter socket on the spare tire clamp bolt. Connect the jack handle and adapter socket, and then turn the jack handle counter-clockwise.

4 Pull out the spare tire and remove the holding bracket.

If the engine switch does not turn easily...
Turn the engine switch while lightly moving the steering wheel from left to light.
